

COMPANY PROFILE

Near about one-half decade of persistent, customer oriented strong approach and the continuous desire to achieve highest quality standards have enabled **Projexel Process Equipments Pvt Ltd** to attain and sustain exponential growth in all its major business lines.

Projexel is an engineering company based at Pune Maharashtra, which was founded by an Engineer as a private sector enterprise. Is a leading integrated turnkey solution provider catering to extensive and diverse array of industry areas encompassing chemical, Oil & gas, petrochemical, Pharmaceutical, Power generation and Heavy Engineering.

Projexel over the years has acquired necessary expertise, experience, Infrastructure and workforce in engineering, Procurement, Fabrication, construction, and project management to accomplish projects on considerable magnitude from concept to commissioning. As a turnkey solution provider, we can facilitate our client as a single point solution provider for every process, civil, mechanical, electrical and Instrumentation aspect of their project scope.

Projexel has an International presence as well. The company's future export business will be supported by wide marketing and distribution network with a reputation of strong customer support.

With experienced and qualified team of engineers we are able to satisfy each and every customer by providing timely delivery, Optimum design, Good fabrication quality, dedicated after sales service etc.

Every customer is the backbone of Projexel

MANUFACTURING FACILITY

Pune manufacturing facility consisting of fully equipped workshop of 15000 sq.ft located at Shelar Wasti, Chikahli, Pune.

1) Reactors

2) Bag Filters

3) Agitator Nuetsch Filter

4) Heat Exchanger

TURNKEY SOLUTION FOR

- Zero Liquid Discharge plant (ZLD) (ETP+RO+MEE)
- Multiple Effect Evaporator plant
- Herbal Extraction Plant

DRYERS

- Spray Dryer
- Flash Dryer
- Rotary Dryer
- Continuous Fluid bed Dryer
- Rotary vacuum Dryer
- Agitated Thin Film Dryer (ATFD)

EVAPORATORS

- Falling Film Evaporator
- Forced Circulation Evaporator
- Rising Film Evaporator
- Multiple Effect Evaporator
- Agitated Thin Film Evaporator (ATFE)

PROCESS EQUIPMENTS

- Heat transfer Equipment
- Reactors
- Storage silos
- Agitators
- Pharmaceutical Process Equipment
- Air pollution control Equipment
- Tanks
